CORPORATE PROFILE

Manufacturing Capability

Starting in 2005, for over 15 years, KingOn (Jingshang) Lighting Technology has expanded its product line to include a wide variety of professional LED products. KingOn mainly focuses on industry lighting, which combines with manufacturing and sale. Up to now, we have more than 150 production staff in our flat fixture manufacturing plant and over 600 staff in our T8 tube factory. We sincerely commit to delivering the most cost-effective and meaningful lighting with our expertise in innovating lighting technology to safer, more environmentally friendly and more effective based products.

KingOn's most recent growth involves indoor decorative lighting and office lighting, creating new lighting experience both domestically and internationally.

Company Culture

KingOn always adheres to serve customers with innovative and energy efficient lights. We heed to the needs of customers and then apply our in-depth knowledge to benefit both our customers and the environment.

We believe today's viewers will be convinced to be OUR customers. We believe today's quality will empower FUTURE's markets. We believe today's innovation will lead to a brighter WORLD.

International Recognition

KingOn has always maintained a high standard of production with products that have passed EMC, ISO 9001, RoHS, CE and so on. Our existing business partners located in all over the world such as Russia, the Middle East, Southeast Asia... Thanks to our advancing R&D team, we have also obtained several patents in our IP 65 flat fixture designing.

PRODUCTS

IP 65 FLAT FIXTURE

Pass EMC
and THD

USES: Hallway, Warehouse, Parking lot, Supermarket, School, etc
